

Oneida County Seminar

Growing Healthy Plants Basics in Plant Disease Management

Brian D. Hudelson

Department of Plant Pathology
University of Wisconsin-Madison/Extension

Plant Disease Management Definition

- Anything that you can do to reduce the impact of disease
- Integrated with other types of management

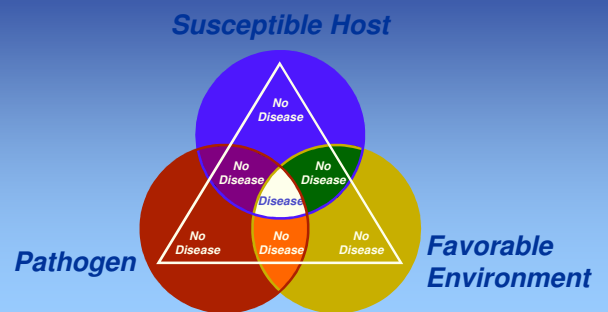

Plant Disease Management Diagnosis

- First step in successful management
- Recognition that something is wrong

- Detective work to figure out what and why something happened

Plant Disease Management The Disease Triangle

Plant Disease Management R-E-P-E-A-T

- Resistance
- Exclusion
- Protection
- Eradication
- Avoidance
- Therapy

Plant Disease Management Resistance

- Using a plant's natural ability to fend off disease

Plant Disease Management Resistance

- Resistance is NOT universal!

Plant Disease Management Resistance

- Resistance is NOT immunity!

Plant Disease Management Resistance

- Resistance can depend on plant "age" and plant part!

Plant Disease Management Resistance

- Resistance effectiveness can depend on the weather!

+

=

Plant Disease Management Resistance

- Resistance may not be equally effective in all locations!

vs.

Plant Disease Management Resistance

- Resistance is sometimes NOT forever!

+

=

Plant Disease Management Resistance

- *Resistance is not everything you may need in a plant!*

Plant Disease Management Resistance

- *Resistance is not always good!*

vs.

Plant Disease Management Exclusion

- *Preventing introduction of pathogens into you garden*

Plant Disease Management Exclusion

- *Buy healthy plants!*

Plant Disease Management Exclusion

- *Buy healthy seeds!*

Plant Disease Management Exclusion

- *Limit soil movement!*

Plant Disease Management Exclusion

- Limit other pathogen introductions!

Plant Disease Management Exclusion

- Decontaminate, decontaminate, decontaminate!

Plant Disease Management Protection

- Applying materials to prevent infections by pathogens from occurring

Plant Disease Management Protection

- Use as a last resort!
- Read pesticide labels!
- Use proper rates!
- Apply at the right times!
- Wear appropriate clothing!
- Alternate active ingredients!
- Get training!

Plant Disease Management Eradication

- Getting rid of pathogens once they have arrived in your garden

Plant Disease Management Eradication

- Do good fall clean-up!

Plant Disease Management Eradication

- Prune diseased branches!

Plant Disease Management Eradication

- Remove entire plants!

Plant Disease Management Eradication

- Control alternate hosts!

Plant Disease Management Eradication

- Control weeds!

Plant Disease Management Eradication

- Rotate, rotate, rotate!

Plant Disease Management Eradication

- Decontaminate, decontaminate, decontaminate!

Plant Disease Management Avoidance

- *Manipulating how you grow your plants to prevent conditions favorable for disease*

Plant Disease Management Avoidance

- *DO NOT plant susceptible plants where a known disease exists!*

Plant Disease Management Avoidance

- *DO NOT plant too early or too deeply!*

Plant Disease Management Avoidance

- *DO NOT plant too densely!*

Plant Disease Management Avoidance

- *DO NOT water too much!*

Plant Disease Management Avoidance

- *DO NOT use sprinklers to water!*

Plant Disease Management Avoidance

- *DO NOT water, heat or nutrient stress plants!*

Plant Disease Management Therapy

- *Eliminating pathogens from infected plants*

Plant Disease Management Putting It All Together

- *Figure out what diseases you have*
- *Figure out what management techniques work*
- *Integrate your disease management with other management needs*
- *DO NOT expect perfection*
- *Enjoy your garden (including the diseases)*

Plant Disease Management Where to Go for Help

*Plant Disease Diagnostics Clinic
Department of Plant Pathology
University of Wisconsin-Madison
1630 Linden Drive
Madison, WI 53706-1598
(608) 262-2863
