Anaerobic Digestate – from manure feedstock

Products of anaerobic digestion produced with manure feedstocks are subject to the same restrictions as raw, uncomposted manure. They may only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

Compost Tea – from manure feedstock

Compost tea made with manure feedstocks and used as a fertilizer or soil amendment is subject to the same restrictions as raw, uncomposted manure. It may only be (i) applied to land used for a crop not intended for human consumption; (ii) incorporated into the soil not less than 120 days prior to the harvest of a product whose edible portion has direct contact with the soil surface or soil particles; or (iii) incorporated into the soil not less than 90 days prior to the harvest of a product whose edible portion does not have direct contact with the soil surface or soil particles.

Calcium Polysulfide

May be used as insecticide (acaricide) and for plant disease control only if the requirements of 205.206(e) are met.

Lime-Sulfur Solution (Tessenderlo Kerley Inc.)
 Brandt Lime Sulfur (Brandt Consolidated, Inc.)
 Green Cypress® Lime-Sulfur Solution (Monterey AgResources)

Citrus Products

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes, including use as an insecticide, if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Ж Fractal (Berni Labs. S. de R.L. Microindustrial)

Copper Sulfate

For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems; use is not to exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. When used for plant disease control must be used in a manner that minimizes accumulation of copper in the soil. May be used as an algicide, insecticide, or disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Horticultural Oils – animal or plant derived

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Mitex Organic Acaricide-Insecticide (Bright Organics Corp)
 Aramite (Bright Organics Corp)
 Bravado™ (Bright Organics Corp)
 Akar-X Organic Acaricide-Insecticide (Bright Organics Corp)
 Bactrex™ (Bright Organics Corp)
 Bug Stomper™ Organic Acaricide - Insecticide (Bright Organics Corp)
 Etonne Organic Bactericide (Bright Organics Corp)

Hydrogen Peroxide

May be used for plant disease control or as an algicide, disinfectant, or sanitizer if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. May be used as an adjuvant or inert ingredient in passive pheromone dispensers.

Perasan 'A' Antimicrobial Solution (Enviro Tech Chemical Services Inc)
 OxiDate® 2.0 (BioSafe Systems)
 Di-Oxy Solv Plus™ Broad Spectrum Algaecide / Bactericide / Fungicide (Flo-Tec, Inc.)
 OxiGreen (Antimicrobial Solution) (MChem, Inc)
 PERpose Plus™ (A Growing Alternative, Inc.)
 TerraClean 5.0 Broad Spectrum Bactericide/Fungicide (BioSafe Systems)

Lime Sulfur

May be used in pest control as insecticides, including acaricides or mite control, and for plant disease control if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Lime Sulfur ULTRA (OR-Cal, Inc.)
 Lime-Sulfur Solution (Tessenderlo Kerley Inc.)
 Tetrasul 4s5 Fungicide Insecticide Miticide for Fruits, Nuts, Ornamentals, Roses (OR-Cal, Inc.)
 Rex Lime Sulfur Solution (OR-Cal, Inc.)

Limonene

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes, including use as an insecticide, if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Moss Melt Concentrate (Green Spear, Inc.)
 Avenger AG Burndown Herbicide (Cutting Edge Formulations, Inc.)
 Avenger® Ready To Use (RTU) Weed Killer (Cutting Edge Formulations, Inc.)
 Avenger® Weed Killer Concentrate (Cutting Edge Formulations, Inc.)
 Moss Avenger Moss & Algae Control (Cutting Edge Formulations, Inc.)
 Orange Guard® Ornamental Plants (Orange Guard, Inc.)

Microbial Pesticides

May be used for pesticidal purposes only if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Mined Minerals – unprocessed

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Surround® WP Crop Protectant (Tessenderlo Kerley Inc.)

Mulch – plastic

Must be removed at the end of the season. Plastic mulches in perennial crops may be left for more than one season, but must be removed before the plastic decomposes or breaks into pieces so that it is not possible to effectively remove all pieces from the soil. May be used to control weed problems if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Brite'Nup (Pacific Coating Technologies, Inc.)

Neem Extract and Derivatives

May be used as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Summit® Year-Round™ Spray Oil (Summit Responsible Solutions®/Summit Chemical Co.)

Paper

May only be used as a mulch or compost feedstock.

- EarthLine Garden Essentials (DeWitt Company)
- Organic Garden Fabric (Greenscapes Home & Garden Products)
- DeWitt Garden Weed-Barrier® (DeWitt Company)
- Landmaster™ Biodegradable Paper Mulch (Easy Gardener Products, Inc.)
- Weed Block® Biodegradable Mulch (Easy Gardener Products, Inc.)
- WeedGuardPlus® (SunShine Paper Company, LLC)

Peracetic Acid

May be used as a pesticide to control fireblight and to disinfect equipment, seed and asexually propagated planting material if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices. Also permitted in hydrogen peroxide formulations as allowed in § 205.601(a) and 205.601(i) at concentration of no more than 6% as indicated on the pesticide product label.

- BioSafe Disease Control (BioSafe Systems)
- BioSafe Mold & Mildew Control (BioSafe Systems)
- OXICURE (Advance Research Chemicals, Inc.)
- Peroxy PUNCH (Flo-Tec, Inc.)

Pheromones

May be used if the requirements of 205.206(e) are met, which requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

- Biomite™ (Natural Plant Protection)
- CheckMate® OFM Dispenser (Suterra, LLC)
